Questions

↪ Q11. From "Interactive Learning Portal" interface, select any two scenarios of your choice and explain the main task they describe.

↪ Q12. In each step, briefly explain the purpose and what the step aims to achieve.

↪ Q13. Give five oc commands with options and explain what they aim at archiving.

↪ Q14. Give five oc commands without option and explain what they aim at achieving.

↪ Q15. What is a volume and how useful it is?

Challenge Question

↳ Q16. Build a blue-green application that switches the color of a page/screen from blue to green and vice-versa. (5pts)

↳ **Bonus**: Scale out your applications to 10 instances on blue and green and scale in back to 1 each. 2pts

↳ NB: Q16 is obligatory! If you do not answer this question, your TP will not be marked and if you have less than 2pts on Q16, you will be given 0/5.
