Challenge Question

↳ Q16. Build a blue-green application that switches the color of a page/screen from blue to green and vice-versa. (5pts)

↳ **Bonus**: Scale out your applications to 10 instances on blue and green and scale in back to 1 each.   2pts

↳ NB: Q16 is obligatory! If you do not answer this question, your TP will not be marked and if you have less than 2pts on Q16, you will be given 0/5.

Fin

Good luck!
